

Kids at the Apartment

Elaine and Migyeong have been with LuPing, LaingLiang and YoungEn since 1999 when the children were just three years old. Now they are young adults.

YongEn's English name is Sam. The meaning of YongEn is "eternal grace" in Chinese.

He is an amazing boy. He crawls to his classroom every day in high school. His classmates told him that they will choose not to study if they were the disabled ones.

But, YongEn said that I can do it because I love God.

LiangLiang is a cerebral palsy, but we are so grateful that he likes Math and is studying accountant .

LuPing was born with Spina Bifida. He was able to do the surgery in USA when he was 6 years old by God's grace. That's why he was able to study in the school.

ZhiLei is an 8 years old boy who is in the primary school. He was born with brittle bones. He is loved by everyone in school. He is good in Music, arts, academic class too. We are continually looking for a family to adopt him. YongEn can crawl to his class room, but ZhiLei can not. There's no elevator in the schools in China. How nice if there is an opportunity for ZhiLei to

study continually.

Now, his class room is on the first floor , but it will be on the third floor when he goes to the third grade. We hope that we can find a family for him soon.
